

CHARLES SMITH, CSM

Agile Business Analyst | Product Owner | UAT Lead | Requirements & Backlog Management

Oakland, TN 38060 | 619-246-8221 | charles.smith615@gmail.com | U.S. Citizen | Open to Remote Opportunities

PROFESSIONAL SUMMARY

Agile Business Analyst and Certified Scrum Master (CSM) with 10+ years of federal government and DoD enterprise experience translating complex stakeholder needs into actionable software requirements, user stories, and sprint-ready backlog items. Proven ability to identify business and system requirements, decompose high-level epics into functional specifications and test criteria, and partner with development teams to deliver user-friendly, mission-critical solutions. Deep experience owning product backlogs, facilitating Scrum ceremonies, leading UAT processes end-to-end, and managing requirements traceability throughout the full system development lifecycle. Skilled communicator and cross-functional team partner comfortable working across product owners, developers, testers, engineers, and senior leadership — translating technical complexity into clear, stakeholder-ready documentation. Actively developing AI-assisted analysis capabilities using Claude AI and Claude Code to improve workflow efficiency.

CORE COMPETENCIES

Requirements Elicitation & Decomposition	User Story & Acceptance Criteria Authoring	Product Backlog Ownership & Grooming
Agile / Scrum SAFe Sprint Planning	UAT Leadership & Test Case Development	Requirements Traceability & SDLC
Stakeholder & Developer Team Liaison	System Constraints & Impact Analysis	Functional Specifications & Documentation
JIRA SharePoint Visio MS Office	DoD / Navy Enterprise Systems Experience	AI-Assisted Analysis Claude AI & Code

PROFESSIONAL EXPERIENCE

Agile Business Analyst / Product Owner — BPR Co-Lead

CACI, Inc. — Navy N16 / ES IT/CIO Contract | Millington, TN

Sep 2022 – Mar 2026

- Identified stakeholder business and system requirements through structured elicitation sessions with end users, program managers, and SMEs — translating decomposed needs into actionable software requirements, user stories, acceptance criteria, and functional specifications ready for development and testing.
- Owned and managed the product backlog across multiple sprint cycles — grooming, prioritizing, and refining epics and user stories in partnership with technical teams to ensure sprint-ready items that maximized value delivery each iteration.
- Managed requirements traceability throughout the full SDLC — participating in requirements traceability with developers, validating changes were captured in both requirement documents and test scripts, and maintaining documentation through system releases and scope changes.
- Served as UAT Lead for new system functionality and feature releases — wrote comprehensive test cases, facilitated UAT sessions and Test Readiness Reviews (TRRs), tracked defects through resolution, and confirmed system integrity before each production deployment.
- Partnered with development teams to generate documentation on functionality being delivered — authoring process narratives, SOPs, workflow diagrams, and technical specifications that served as the authoritative reference across all stakeholder groups.
- Facilitated sprint planning, sprint reviews, retrospectives, and cross-team coordination meetings — ensuring alignment on technical requirements, priorities, and quality standards across product, engineering, and business stakeholders.
- Managed the full ticket lifecycle in JIRA from intake through close-out — supporting backlog grooming, defect triage, and change request tracking with clear traceability between requirements, test cases, and defects.
- Promoted to Co-Lead for Team Three based on demonstrated analytical rigor, backlog management capability, and ability to mentor junior analysts through complex requirements and testing workflows.

Management & Program Assistant (GS-0344-06)

Command Navy Recruiting Command, N6 — IT & Communications | Millington, TN

Aug 2017 – Sep 2022

- Managed documentation deliveries and maintained organized records for a 6,000+ device enterprise IT program across 28 districts — developing specific requirements to serve as build-to specifications for procurement and inventory management workflows.
- Produced recurring reports and ad-hoc analysis for leadership; coordinated with system administrators and vendors to gather requirements, troubleshoot issues, and document resolutions — managing multiple document deliveries simultaneously under firm deadlines.
- Developed and delivered training to peers and system administrators on database management and documentation procedures, demonstrating the ability to communicate functional system behavior clearly to varied audiences.
- Redesigned enterprise tracking systems and documented improved processes, contributing to measurable gains in data accuracy and operational efficiency.

Human Resource Assistant (GS-0203-05)

Navy Personnel Command, Pers-4013 | Millington, TN

May 2015 – Aug 2017

- Performed structured Application Functional Testing (AFT) for BBD Phase 1B enterprise system rollout — validated 43 data elements across 4,246 Navy activities, identified and documented discrepancies, and confirmed application integrity before production deployment.
- Served as liaison between business users (PERS-4013) and IT implementation teams (PERS-455) during the CMS-ID enterprise system rollout — gathering requirements, clarifying functional behavior, and ensuring system solutions addressed documented business needs.
- Created and modified 1,675+ fleet user accounts in CMS-ID while managing system access governance and PII compliance — maintaining organized documentation and coordinating with development teams throughout the implementation lifecycle.

Human Resource Assistant (GS-0203-04)

Navy Personnel Command, Pers-32 | Millington, TN

Aug 2014 – May 2015

- Processed and validated 200+ HR data records daily within enterprise automated systems (EMPRS, TRIM, Officer Master File) — managing multiple document deliveries, maintaining requirements accuracy, and supporting Selection Board processes with minimal supervision.

MILITARY SERVICE

Air Traffic Control Specialist, Petty Officer Second Class (E-5)

United States Navy | May 2004 – Mar 2010 | Honorable Discharge (DD-214 available upon request)

EDUCATION

Bachelor of Arts — English Literature

University of Utah, Salt Lake City, UT | December 2012

CERTIFICATIONS & TECHNICAL SKILLS

Certified Scrum Master (CSM) | Scrum Alliance | February 2024 | Cert #1901470

Agile & Requirements Tools: JIRA (backlog management, defect tracking, sprint planning, requirements traceability), SharePoint, MS Visio

Productivity & Collaboration: Microsoft Office Suite (Word, Excel, Outlook, PowerPoint, Visio), Google Workspace, ODIS, ARIS, CMS-ID, EMPRS, TRIM

AI & Emerging Tools: Claude AI, Claude Code (beginner/working knowledge — documentation automation, workflow scripting)

Methodologies: Agile/Scrum, SAFe, Product Ownership, SDLC, UAT Lifecycle Management, Requirements Management, Business Process Reengineering (BPR), QA
